

Aerosol Products Banned at RGHS

Owing to the serious nature of the allergic reactions of members of the Riverside community to aerosol products such as deodorants, hair spray, body spray the school community is banning these products.

Aerosol products are not to be brought onto the school grounds.

Students are asked to use pump sprays instead of aerosol cans, or use liquid or paste forms of products. Pressurized aerosol products emit unnecessary volatile organic chemicals and produce a fine mist that is easily inhaled and absorbed into the lungs and bloodstream.

Teachers have been asked to confiscate any aerosol products found at school and bring them to the Deputy Principal. Parents will be informed that the products have been collected from their daughter and that they can call into the school and collect the product. Products will not be returned to students.

Please support us to ensure the safety of all our students.

Additional Information for Teachers

Some aerosol products will need to be used in class, for example, in Visual Arts. Teachers are asked to purchase alternate products where practical. If this is not possible the teacher is required to:

1. Not allow the aerosol product to be used inside buildings or in heavy traffic areas
2. Check with individual students prior to allowing them to use the product
3. Supervise students using these products
4. Not ask students to bring the products onto the grounds for use in class
